Southern Custom Practiced By Southerner in North.

Not long since, according to the dispatches, a young southerner was in a restaurant or store in St Louis, when he became involved in some kind of a dupute with a man who was proprietor or employe, in the presence of the cashier, who Was a Woman

We premme that the controver sy became a little heated, though the weather advised all people to keep as cool as possible, and to not aggravate the barometer or ther incineter uniocessarily, because the St Louis man curred the outhern man

We are not advised whether the young man felt hunself insulted, though we may reasonably suppose he did, but it appears from the newspaper account that he objected to being cursed in the pres ence of the larly

At any rate, he began to throw bricks at once, with the result that he was arrested and upon being discharged by the officer before whom he was arranged, he was admonished by that peace preserv er, that they did not do things there as they did "down south," and warned him against a repiti tion of the offense

This showed that the St Louis magistrate had an impression that when a man cursed another in the presence of a lady 'down south," the patural consequence was a flybl

This undoubtedly used to be so, and without attempting to an alyze the conditions here in this part of the vineyard in these times which have been changed somewhat with the advent of sprighther yet more cantious poli ey of commercial life, though we remember the time when these conditions produced a lively and mayitable scrap.
